

**Full-time Master's Programme in Toxicology organized by Karolinska Institutet,  
Stockholm, Sweden**

Dear colleagues,

Please find below information on the Full-time Master's Programme in Toxicology organized by Karolinska Institutet, Stockholm, Sweden.

The programme will start in August 2012 and is now open for application from international students. The programme gives students an in-depth knowledge of the broad and interdisciplinary toxicological field. The programme prepares students for either a research or professional career, and provides a solid platform for doctoral studies in toxicology or work in risk/safety assessment-related areas in the public sector or industry. The programme consists of two and a half semester of theoretical and practical courses in toxicology and health risk assessment and a long master project.

Application deadline is January 16, 2012.
